Relevant Experience

Software Engineer, **TechnoNext Ltd.** Jan 2023 — Present

- Delivered high-quality production code for 5+ client projects, including Cartup (e-commerce), Foodi (food delivery), FirstTrip (OTA), and Us-Bangla Airlines, ensuring 98% on-time delivery and 95% client satisfaction.
- Led the research, development, and architecture of technical solutions, reducing development time by 20% through optimized workflows and reusable components.
- Collaborated with designers, project managers, and engineers to transform creative concepts into production-ready applications, improving user engagement by 30%.
- Mentored 3 junior engineers, conducting knowledge-sharing sessions and code reviews to enhance team productivity and code quality.

Software Engineer (Front-End), **Morpheus Soft.** Dec

2025 — Present (Part Time)

- Engineered a biometric authentication system (PalmID OAuth) using Vite + React, Tailwind CSS, and WebAssembly, enabling users to register and log in with left/right hand palm scans or email OTP, reducing login friction by 40%.
- Developed a responsive crypto platform frontend using HTML, CSS, and JavaScript, focusing on sleek design and performance optimization for global users.

Software Engineer Intern, **Teletalk Bangladesh Limited.** Jan 2022 — May 2022

- Designed and implemented an approval system, reducing processing time by 40% and improving operational efficiency.
- Contributed multiple projects and tasks simultaneously under pressure.

Work Projects

Cartup, January 2023 — Present

- Built and maintained frontend modules for logistics, inventory management, admin tools, accounting, seller, and CRM systems.
- Contributed to the backend of multiple modules, including Products, and central Authentication System with Node.js and PostgreSQL.

Foodi, December 2023 — April 2024

- Contributed to the frontend of multiple modules, including customer, and CRM.
- Enhanced app performance, achieving a 20% reduction in load time and improving user retention by 15%.

FirstTrip, February 2023 — June 2023

- Implemented personalized recommendations and expert guidance features to enhance user travel planning experience.
- Ensured seamless integration and high performance across the platform to empower users in planning, booking, and experiencing their first journeys.

IDP PalmID OAuth, December 2025 — Present

- Developed a biometric authentication system enabling users to register and log in using palm scans (left & right) or OTP-based email login, using Vite, React, Tailwind CSS, WebAssembly, and vanilla JS.
- Collaborated with the machine learning team to integrate WASM palm recognition modules, delivering a seamless and secure user experience.

Skills

Programming Languages

JavaScript, TypeScript, C#, C++,
HTML, CSS, SQL

Libraries & Frameworks

React.js, Next.js, Node.js, .NET, Express.js,
Tailwind, Redux, Vite, React Query

Architecture & Patterns

Microservices, Monolithic, Monorepo,
RESTful APIs, OAuth 2.0, AWS,
WebAssembly

Tools & Platforms

PostgreSQL, SQL Server, MongoDB, Kafka,
Redis, Linux, Git, Docker, AWS, Firebase,
Figma, GPT

Education

American International University – Bangladesh (AIUB)

BSc in Computer Science & Engineering (CSE)

Spring 2018 — Spring 2022

Thesis: Detecting Fake News on Social Media
Using Machine Learning and Natural Language
Processing

Publications

Publications & Research

**Multimodal LLMs for Human–AI Interaction:
A Unified Text, Image, and Speech
Framework (2022)**

Certifications

ICPC - International Collegiate
Programming Contest
Issued Apr 2021

Hacker rank - Frontend Developer (React)
Issued Apr 2023

Coursera - AI For Everyone
Issued Jun 2020

Interests

Traveling, climbing, science fiction novels,
movies
