Relevant Experience

Software Engineer, **TechnoNext Ltd.** Jan 2023 — Present

- Deliver high-quality, robust production code for a diverse array of projects for clients including Shoplover E-commerce, Foodi for food delivery, FirstTrip, Us-Bangla Airlines and more.
- Work alongside creative project manager to lead the research, development, and architecture of technical solutions to fulfill business requirements.
- Collaborate with designers, project managers, and other engineers to transform creative concepts into production realities for clients and stakeholders.
- Provide leadership within engineering department through close collaboration, knowledge shares, and mentorship.

Software Engineer Intern, **Teletalk Bangladesh Limited.** Jan 2022 — May 2022

- Implemented Approval system, Improved data rendering time. Developed an efficient and fast searching algorithm for the approval system.
- Contributed up to 2 projects or tasks at a given time while under pressure.

Work Projects

Shoplover, January 2023 — Present

- ShopLover is a cutting-edge e-commerce platform revolutionizing online shopping experiences. Built with the latest technologies including Next.js, Go, .NET, PostgreSQL, and Node.js, ShopLover utilizes a microservices architecture for unparalleled scalability, flexibility, and performance. Implemented personalized recommendations and expert guidance features to enhance user travel planning experience.
- Contributed to the frontend of multiple modules, including logistics system, inventory management, admin tools, accounting, seller, CRM system and customer module.
- Contributed to the backend of multiple modules, including Products, and central Authentication System with Go and PostgreSQL.

Foodi-BD, December 2023 — April 2024

- Foodi is a top food delivery app featuring over 5,000 restaurants and offering incredible deals and services. Developed using cutting-edge technologies like Next.js, Go, PostgreSQL, and Node.js, Foodi employs a microservices architecture to ensure exceptional scalability, flexibility, and performance.
- Contributed to the frontend of multiple modules, including customer, and CRM.

FirstTrip, February 2023 — June 2023

- Developed FirstTrip, an innovative OTA project using React for intuitive interfaces, Node.js for backend services.
- Implemented personalized recommendations and expert guidance features to enhance user travel planning experience.
- Ensured seamless integration and high performance across the platform to empower users in planning, booking, and experiencing their first journeys.

Skills

Programming Languages

JavaScript, TypeScript, Go, C++,
HTML, CSS, SASS

Libraries & Frameworks

React.js, Next.js, Node.js Gin, GORM, Ant
Design, Prime React, Tailwind

Tools & Platforms

PostgreSQL, MongoDB, Git, GitHub,
Netlify, Vercel, Docker, Firebase, Figma

Education

American International University – Bangladesh (AIUB)

BSc in Computer Science & Engineering (CSE)

Spring 2018 — Spring 2022

I am a proud alumnus of American International University - Bangladesh (AIUB), holding a Bachelor of Science degree in Computer Science & Engineering—a transformative educational experience that has shaped my technical prowess and problem-solving capabilities.

Certifications

ICPC - International Collegiate
Programming Contest
Issued Apr 2021

Hacker rank - Frontend Developer (React)
Issued Apr 2023

Coursera - AI For Everyone
Issued Jun 2020

Interests

Traveling, climbing, racing car, science fiction
novels, movies
